

There are April rain showers and you need your umbrella! You must find your umbrella, so you don't get wet outside. Print the umbrellas, laminate if desired and cut out. Have all the students close their eyes. Explain that if the student gets an umbrella, that they have to keep it a secret. When all the umbrellas are hidden, pick a student or students to ask his/her peers if they have the item? Continue this activity until all the umbrellas are found.
