

## Visual Perceptual/Visual Motor Worksheet #4

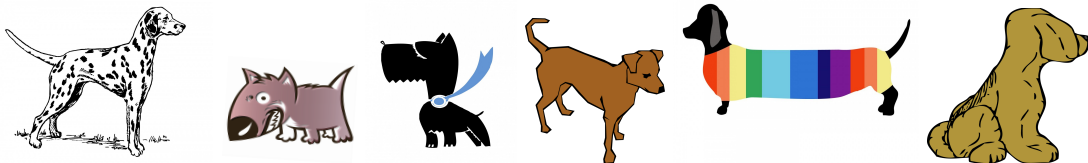

1. Circle the alphabet letters from A to G.

V A B F B D C R D S E G E F G

2. As fast as you can match the shapes by drawing a line to the two that look alike, but are different sizes and may be in different orientations. Check them after to see how you did.

3. Check all the dogs facing on your left.

How many did you find?

4. Trace PacMan's path to the Ghost

5. Look at this picture for 30 seconds, then cover it up:

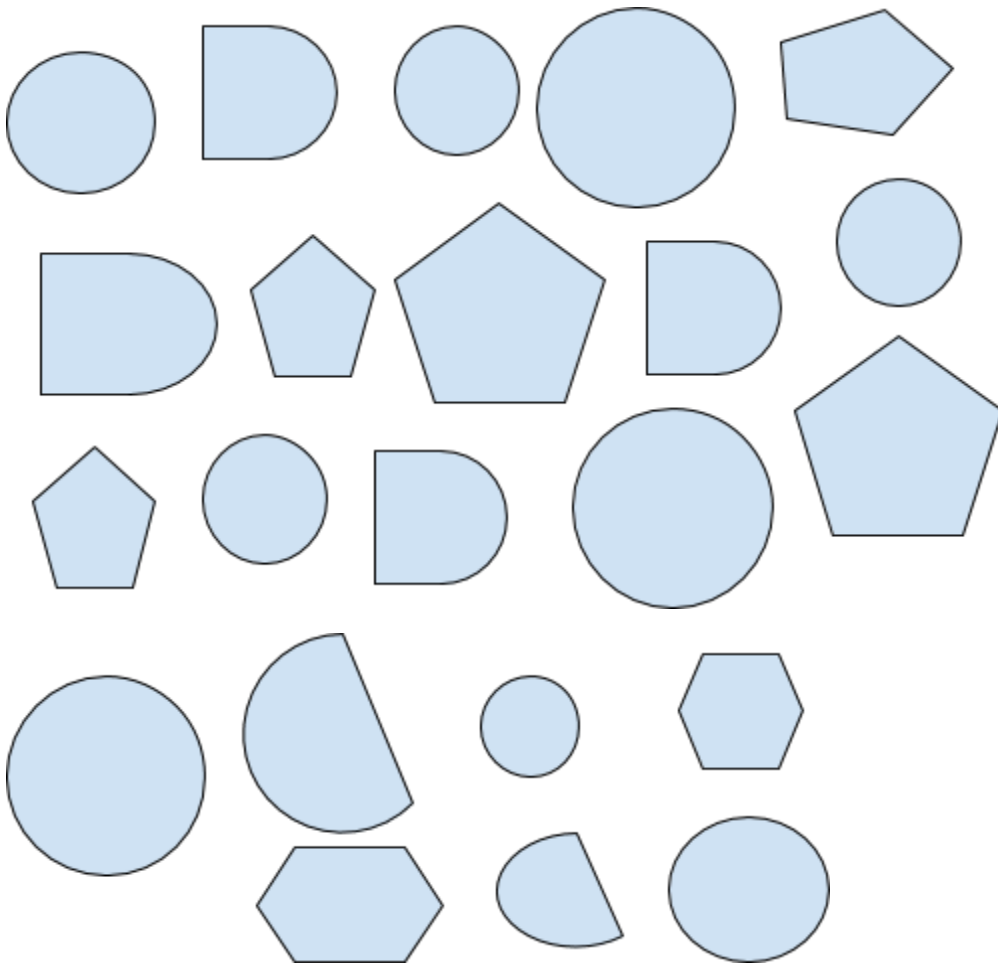

- How many blue stripes are on the boys shirt?
- What color is his flip flops?
- How many coconuts are on the two trees?
- What two things is the boy carrying?
- How many clouds are in the sky?
- How many starfish on the sand?

6. Circle only the uppercase letters:

A f H Y y B D j l P m W z d L k

T t p v N S x M D E K e x G b

7. How fast can you put x in only the circles and two lines in all the without going out of the shape? Check after.

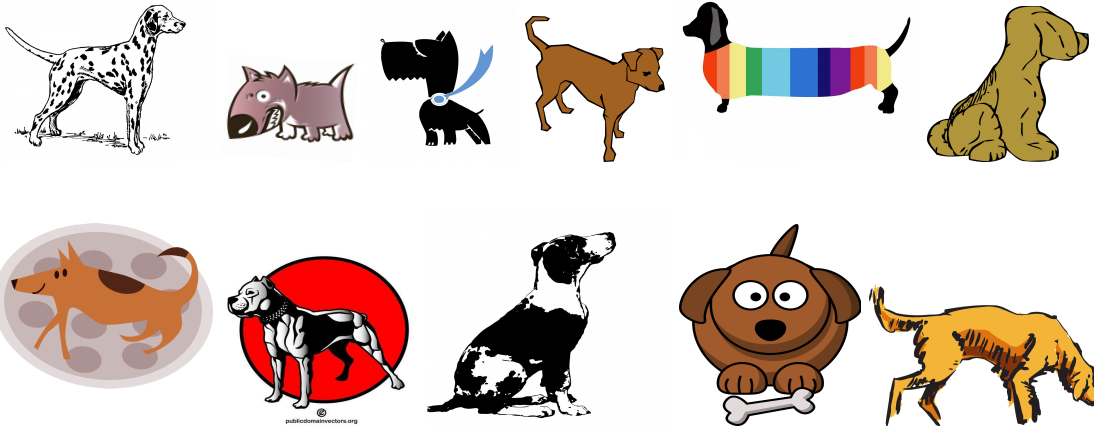

8. How many capital or upper case letters start from the bottom line?

Answer key:

1. The letters in **Bold** are the correct ones in order:

V **A B F B D C R D S E G E F G**

2. If you matched them correctly, there should be no unmatched.

3. In the first row the second, third, and fifth dogs are facing the left. In the second row the first and second face the left. All together there are five dogs facing the left.

5. The boy has **two** blue stripes. His flip flops are **blue**. There are **six** coconuts. He is carrying a **picnic basket** and a **beach float**. There are **two** clouds in the sky. There are **two** starfish on the sand.

6. The Letters in **BOLD** are upper case.

**A** f **H** **Y** y **B** **D** j l **P** m **W** z d **L** k  
**T** t p v **N** **S** x **M** **D** **E** **K** e x **G** b

7. You should have checked that all x are within the circles.

8. None. All upper case letters start at the top!
