Hull High School
Class Waiver Request Form 2022-2023

Policy: Placement in classes is based upon teacher recommendations and prerequisites. Students and parents may decide to move to a higher level if the student meets the prerequisite in a specific course. Students and parents who would like to move to a higher level for which the prerequisite has not been met must fill out the following waiver request form. Please read the terms carefully. Decisions granting waivers are based upon the student's written statement, record, available space, and other criteria as determined by the principal.

Students granted a waiver would be allowed to drop drown a level prior to the issuance of first term progress reports. After this time, students in a class on a waiver will not be allowed to drop down a level for any reason. They will be required to remain in the class for the remainder of the year.

Directions:

1. The student must complete a separate waiver for each class he/she is attempting to waive into.
2. The student must fill out the information on this form AND answer the questions on the back.
3. The student should give the Teacher Evaluation Form to their current teacher in the subject area they are filling out the waiver for.
4. The waiver must be completed and turned in no later than Wednesday, March 22, 2023 to the Memorial Middle School Main Office. Waivers turned in after Wednesday, March 22nd will be considered late. Late waivers will be noted in the approval process.

Student: _____

Schedule placement (course title): _____

Requested Placement (course title): _____

When a student seeks to waive into a higher level, it is important to remember that the student is taking on a great deal of academic responsibility. Course levels are designed in relation to the pacing of curriculum, methods used to teach the curriculum, and the level of student independence expected. Often times there can be a period of adjustment, as a student learns what is expected of him or her when moving between levels. While evaluating waiver requests, the level of interest and commitment to the subject will be carefully considered.
