MASCA Model 3.0

The CCA scope and sequence of MyCAP activities is organized around three domains identified in the Massachusetts definition of college, career and life readiness:

- Personal/Social identifies activities that address CASEL's five social emotional learning area;
- Career Development Education is focused on career awareness, career exploration and career immersion activities.
- Academic, Career, and Postsecondary Planning focuses on aligning course selections with personal interests while meeting state and local graduation requirements, identifying career interests and setting goals to achieve success.

o Together, CCA and MyCAP ensures students will be prepared for college, career and active and informed citizenship. Together, CCA and MyCAP actively engage students in college, career and life readiness.

MASSACHUSETTS
Department of Elementary
and Secondary Education

Systemic School Counseling Curriculum: Grades 8-12

MASCA Model:

DELIVERY of comprehensive, developmentally appropriate, multi-tiered, proactive K-12 standardsbased school counseling curriculum, programs and services for ALL students. It is where words are put into action and data is gathered to assess student impact and program effectiveness.
